| <input type="checkbox"/> State public health departments | <input type="checkbox"/> Policymakers |
| <input type="checkbox"/> Hospitals, clinics or managed care organizations | <input type="checkbox"/> Other: |

Background on the intervention:

Keep a Clear Mind (KACM) is a take-home drug education program for older elementary school students (8 to 12 years old) and their parents. The take-home material consists of four weekly sets of activities that children complete with their parents. The program also includes parent newsletters and incentives.

Findings from the systematic reviews:

The Substance Abuse and Mental Health Services Administration (SAMHSA) lists Keep a Clear Mind as a model program. See the link below for more information.
